

To our Dear Customers,

We desire to be fully transparent, especially with all the marketing ploys and deception in the market these days. We feel like we need to inform you of some changes we have made to our ice cream. In the past we have bought all individual ingredients to mix them ourselves to make our ice cream base. Because we process on such a small scale, maintaining the current way of making mix costs us 80K more a year and is impossible to maintain. We have had hard decisions to make and we have decided to buy our mix ingredients (cream, sugar, stabilizer, milk) already put together. The only downside of this is that while we do add our milk to the mix, it is not exclusively our milk and is a minor addition. Our ingredient labels don't even change because the ingredients are the same high-quality components we have always used.

Please be assured that the milk and yogurt we sell in our shop is %100 OUR organic, grass fed, grain free milk from OUR cows and will remain that way. The pork and Beef sold in our retail are also 100% raised on our farm, pastured meat.

As we go forward, we hope to expand our Dairy products that are pure, simple dairy sourced straight from our farm only.

Thank you for sticking with us in this journey of trying to maintain and preserve this Farm and our Dairy. We have learned so much, continue to learn and are constantly striving to be better! Please rest assured we will always be HONEST and transparent with you.

Love,

Your Creamery Family
